PROFESSIONAL SUMMARY

Motivated Front-End Web Developer with practical experience building responsive and interactive web applications. Skilled in developing user-focused interfaces and working with modern web technologies, databases, authentication and version control. Passionate about turning real-world problems into practical digital solutions and continuously improving technical skills through hands-on projects.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Tailwind CSS

Backend & Database: Supabase, PostgreSQL, Authentication, APIs

Tools: Git, GitHub, Vite, VS Code

Development: Responsive Design, UI Development, Debugging, Database Integration, Role-Based Access

FEATURED PROJECTS

JAY ENTERPRISE

Multi-Vendor E-Commerce Platform

A digital marketplace designed to connect buyers with verified vendors and importers of fabrics and fashion accessories.

Key Areas:

- Multi-vendor marketplace experience
- Buyer, Vendor and Importer user spaces
- Role-based interfaces
- Product listing and management
- Inventory management
- Wholesale/bulk purchasing
- Admin dashboard
- Vendor and importer approval workflows
- Authentication
- Database integration
- Supabase and PostgreSQL
- Row Level Security
- Payment integration//

Technologies: React, JavaScript, Vite, Supabase, PostgreSQL, [confirm/add actual technologies]

 **Live Demo:** [jay-enterprise-19.netlify.app]

 **GitHub:** [<https://github.com/JennyCapricon/JAY-Enterprise>]

ACE TEST**Education / Assessment Platform**

A web-based assessment project designed to provide an interactive experience for online testing and learning.

Technologies: [Add actual technologies]

Key Areas:

- Responsive interface
- Assessment functionality

- User interaction
- **[Add confirmed features]**

 **GitHub:** [https://github.com/JennyCapricon/AceTest]

 **Live Demo:** [acetestex.netlify.app]

CREATOR HUB

Creator Platform

Built a responsive social media content platform with AI-assisted content generation, platform-specific post creation, content planning, analytics, ideas, trends, and profile management.

Technologies: [*React • Firebase • Tailwind CSS • Netlify*]

Key Areas:

- Responsive UI
- Interactive components
- User-focused experience
- **[Add confirmed features]**

 **GitHub:** [https://github.com/JennyCapricon/CreatorHub]

 **Live Demo:** [con-creator-hub.netlify.app]

ADDITIONAL PROJECTS

- **GovTrack** — Civic / Government Technology Project
- **FLOWBOARD** — Productivity / Project Management Application
- **Jenny Store** — E-Commerce Project
- **TechPro Template** — Front-End Website Template
- **RAD5 Tech Hub** — Technology / Business Website
- **Responsive Gallery** — Responsive Front-End Project
- **Personal Profile Page** — Front-End Project

- **API Integration Projects** — Web/API Projects

Full project details and documentation are available on my portfolio.

EDUCATION

[RAD5 TECH HUB]

[Front-End Web Development]

[19th January,2026] – [19th June,2026]

Location: [Ada, Abia State, Nigeria]

CERTIFICATIONS & TRAINING

Front-End Web Development Training — RAD5 Tech Hub, 2026

📄 Practical **Web Development & Project Development** — RAD5 Tech Hub, 2026

📄 **Git & GitHub / Version Control Training** — RAD5 Tech Hub, 2026

ACHIEVEMENTS & ACTIVITIES

- Developed and presented practical web development projects during technical training.
 - Built a multi-vendor e-commerce marketplace as a major personal project.
 - Participated in technology and developer challenges.
 - Applied frontend development, database integration, authentication and Git/GitHub in practical projects.
 - Prepared and presented projects for graduation exhibition and Demo Day.
 - Continuously developed technical skills through hands-on software projects and problem-solving.
-

DEVELOPMENT EXPERIENCE

Through practical projects and technical training, I have gained experience in:

- Building responsive web interfaces
- Creating reusable UI components

- Connecting applications to databases
- Implementing authentication
- Working with user roles and permissions
- Debugging application issues
- Using Git and GitHub for version control
- Designing applications around real-world user needs
